New Scania P-Cab on P410 chassis as Sovereign Demo: November 2019

7-Horse Specification 2020/21 with innovative high-quality engineering showcasing an exciting layout to maximize the living, bathroom and horse areas, functional changes to previous models producing a world class horsebox with exceptional residual value

12 months Sovereign Horsebox warranty is included with remainder of Scania chassis warranty

(Personalised number plate not Included)

Key additional changes:

- Specification to showcase new 2020/21 style, new equipment and materials
- World class engineering, using premier grade materials to coach built professional standard
- Scania P410 Euro 6 - 26-ton 6x2 chassis/cab with 2 pedal fully automatic gearbox, front and rear air suspension, rear steer, Sat Nav, air conditioning
- 7-Horse with 6 x stainless-steel partitions all padded to give super ride for all equines. 2 x partitions are articulated to fold to 90 degrees for ease of loading with side-ramp and rear partition to bend allowing all partitions to lay flat when the rear ramp is closed. This feature allows the horse area to be converted into a separate large space when at stay away shows. Often used for a large drying area, additional sleeping area and huge storage area.
- 3 x large Pop-outs: living area, kitchen area and full bathroom with shower room
- Large grooms' bedroom over bathroom, with sunroof/blinds/escape hatch and side window
- Living entrance door towards horse area allowing increased living room floor area
- Hydraulic rear and side ramps with gates
- Professional tack-box fitted to rear ramp for easy transport and loading
- All horse area windows are dual opening, fantastic for day-shows, maximum ventilation
- Commercial grade LG Air-conditioning for both warm and cold air to both Living and Horse areas

Horse area:

- Roof mounted 2 x extractor fans, 3 x electric sunroofs
- LG Air-conditioning for both warm and cold air (Commercial grade/quality)
- 2 x Hydraulic ramps, rear and side both with Kraiburg rubber matting
- Stainless steel tie rings and hay-net rings, 2 for each stall plus cross ties on each partition
- 2 x Horse opening windows, wicket style, with stainless grille - Amazing natural ventilation for day shows!
- Super padded cushioned hard-wearing Dunlop floor covering
- Horse area with stainless swirl walls for easy clean
- Larger depth of rubber under partitions, remove any trapping points, polished stainless partitions
- 6 x 'H' style stainless-steel partitions making this a 7-Horse layout all padded easy walk up and down horse area (2 x hinged folding)
- Full length blanket rack with hinged Perspex covers for easy viewing and total safety
- 2 x Speakers connected to 'Fusion sound system' (Marine quality)
- 2 x 13amp sockets for clipping, blow-up bed and ancillary items
- Thermostat with link to driver's cab, (Defra approved)
- Slim tack lockers.... reduced depth to prevent horses climbing (Safety first)
- Rear grooms' door and electric sidestep
- 2 x horse area cameras
